

Investigator Toolbox

Welcome to the Investigator Toolbox. The contents of this page are intended for Principal Investigators involved in a Samuelli Institute-funded research study. The Institute is committed to your research study and seeks to ensure that you are able to complete your study within the pre-established timeframe.

To facilitate this process, we have provided you and your research team with resources, including required forms and a FAQ section, that are intended to be used throughout the duration of your study.

Additionally, periodic site/monitoring visits may be required to ensure that Principal Investigators (grantees) are complying with grant terms and conditions.

A Principal Investigator who requires more information or clarification may contact Damara Cockfield directly at dcockfield@SamuelliInstitute.org¹.
