

Evaluating Complex Healing Modalities in Cancer:  
What are the Best Strategies?  
Guest Editor: Wayne B. Jonas, MD  
Integrative Cancer Therapies

## Sponsors

Samueli Institute

## Purpose & Focus

To determine whether "top of the evidence hierarchy" approaches - clinical and laboratory research - have, so far, moved toward answering relevant questions about the use of complementary medicine and to explore alternatives to those approaches in complementary medicine for cancer.

## Audience

Basic and clinical scientists, academics, health maintenance organization providers and administrators, policy makers and philosophers.

## Outcome

The 15 papers prepared were published as a special issue in the journal, Integrative Cancer Therapies in 2006.
